To Whom It May Concern,

The Children Battling Cancer (CBC) Foundation and Fish to Make a Difference partner to make a difference in the lives of children battling pediatric cancers. CBC refers children diagnosed with pediatric cancers to the Fish to Make a Difference Foundation for customized fishing trips designed to get their mind off cancer and treatments. We believe a day out on the water allows the family for a bonding time and opportunity to make good memories at a very difficult time.

We choose Fish To Make a Difference because FTMD included the entire family in the experience. We feel strongly about supporting the siblings of these children in their unique circumstance and Fish To Make a Difference allows for that.

Our CBC families are so grateful for these trips and we are grateful to FTMD supporters that make it possible. We would like to share a few testimonies below.

*“Fish to Make a Difference made a difference in my life at a very difficult time. I was battling stage 3 cancer at age 9. Cancer took away my freedoms, friends and fun. When FTMD offered to take my brothers and me fishing I was so excited. I will never forget my fishing trip.” CJ, survivor*

*“I am very grateful for Fish to Make a Difference because when my brother was diagnosed with cancer it affected the entire family. Even though he was the one who was sick, I couldn't go out much so I wouldn't get him sick. A lot of foundations offered to do special things for my brother but Fish to Make a Difference included me and made me feel like they knew what I was going through also.” Brett, sibling*

As you can see, Fish To Make a Difference has made a difference in the lives of these special children. We are very grateful to FTMD supporters.

*Dawn George  
President  
CBC*
